

Kerri Lush

Web Developer

I specialise in web development, with a focus on cross-platform compatibility and attention to detail. I approach each project with enthusiasm and a willingness to learn. I am an excellent problem solver and am always looking to improve my skill set.

Experience

Frontend Developer, Drew London. 2017–2018.

As lead frontend developer, I ensured their websites looked and performed exceptionally. I used PHP (WordPress), Blade (Shopify), SASS/CSS3 & JS/jQuery to instigate retina-ready, responsive, pixel-perfect websites from Photoshop/Sketch designs for their clients. I worked on user-facing frontend builds for Drugline, Emmy London & STL Partners.

Web Developer, Opia Ltd. 2016–2017.

As part of a team, I delivered and maintained customer-facing applications for blue-chip clients including Exxon, Samsung, HP, LG, Microsoft, Sony, ASUS, Fujifilm, Kodak and more. I used OO PHP (Laravel & Symfony) with a test-driven, MVC approach to ensure my code was readable and DRY. Within the company, I championed frontend design, using SASS, CSS3, Blade and VueJS to design responsive, dynamic websites.

Web Designer / Developer, Sleeky Web Design & Print. 2016.

I built websites from scratch using PHP (WordPress, Opencart), CSS3 & HTML5. I was also responsible for writing blog posts and SEO content for the agency and their clients.

Freelance Web Designer / Developer, trading as Vestige Media. 2010–2016.

For many years I worked as a freelance web designer and developer: primarily for music industry artists, record labels, publishers and associated services.

Competencies

PHP (OO MVC), HTML5, Bootstrap3 & 4, CSS3, SASS, MySQL, Javascript (VueJS, jQuery), Foundation & MJML Email, Gulp, Docker, Vagrant, Jekyll, Adobe Suite, Sketch, WordPress, Shopify, Server setup (LEMP/LAMP), Capistrano, Public Speaking. Typing speed: 95 wpm.
